

## CREDITS

The problems involved in writing even a short history of an area such as this, where most of the material depended upon the memories of people who came here long before we did, and where even printed records often differ, are many.

The authors are fully aware that there may be variances in what two or more old timers believe to be authentic. Perhaps through our efforts more and better records will come to light.

We wish to express our heartfelt appreciation to the many, many people who have visited with us about early days, and to those who have loaned us pictures to use in the book. The maps used in preparing our center pages were furnished by Garl's Drug Store.

Members of the churches and civic groups were most cooperative in providing us with the data about their organizations.
